

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

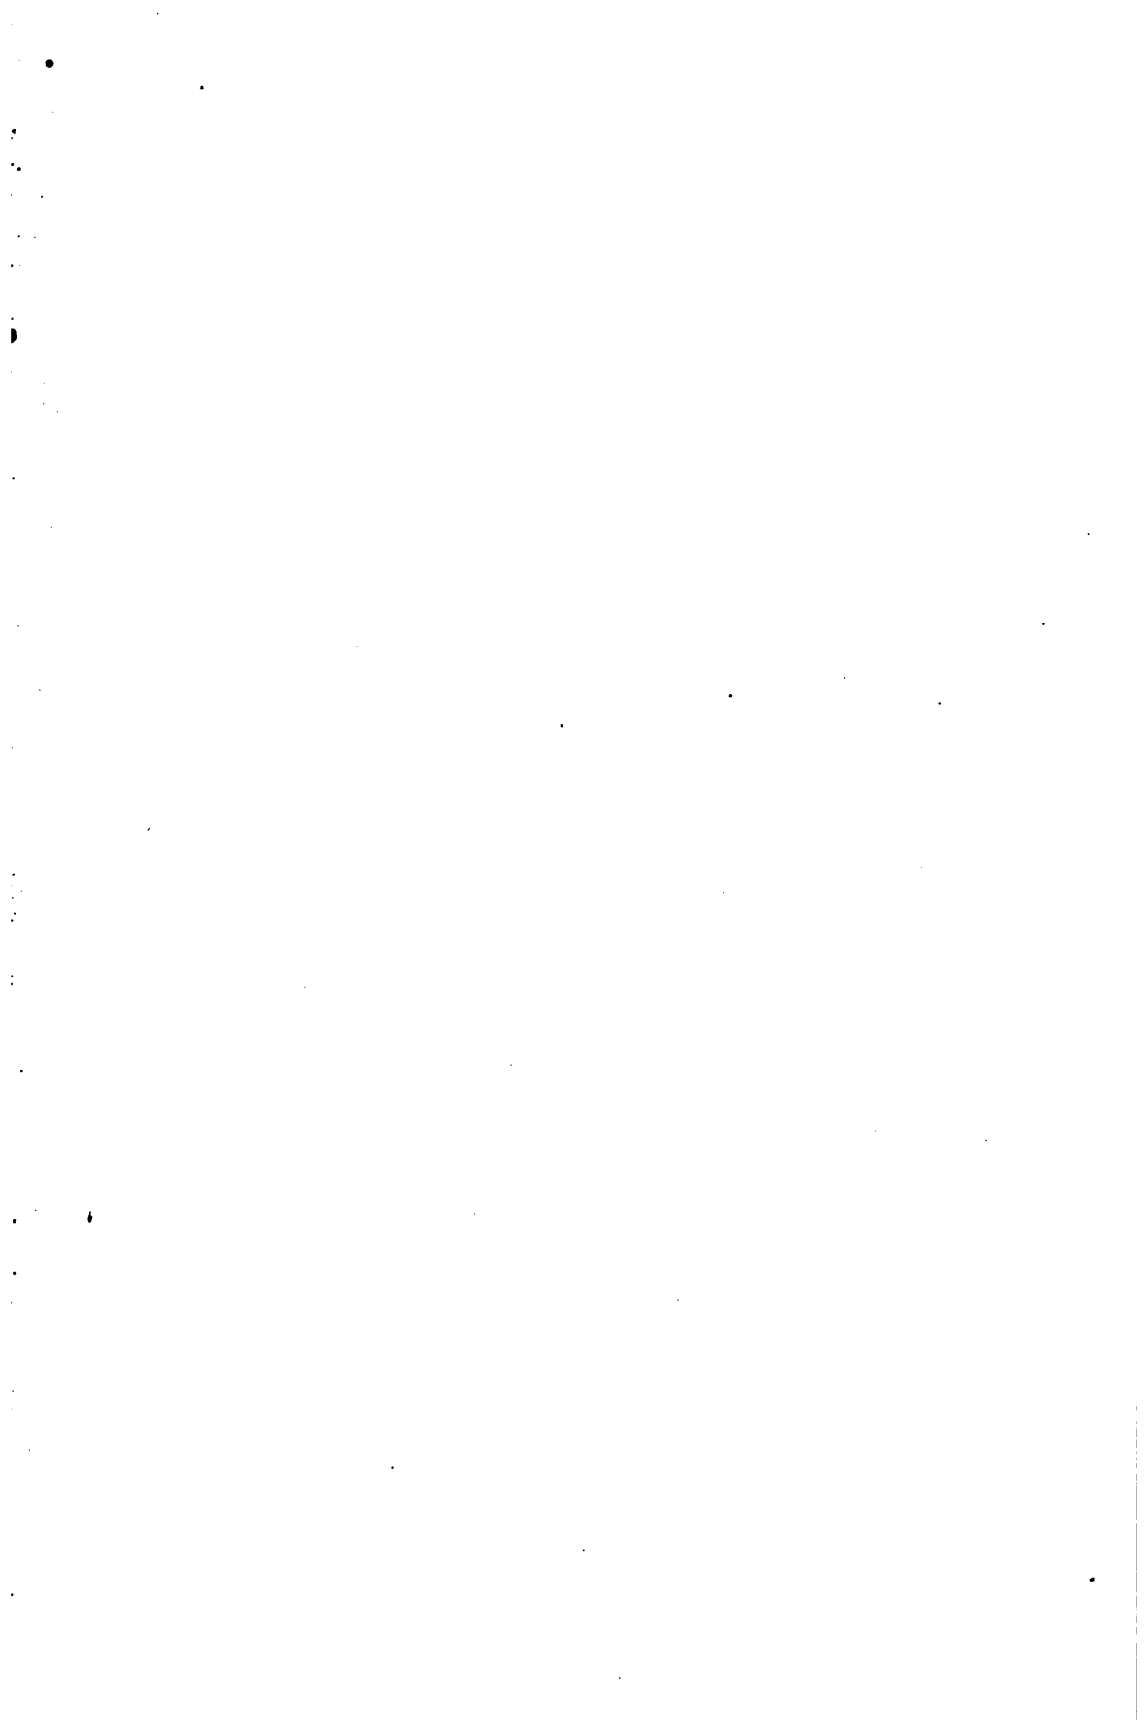

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE
AMERICAN

PREFATORY NOTE

This Directory follows closely the plan of recent editions. The principal change is the listing of all living graduates under each of the degrees which they have received at Yale upon examination, regardless of previous listing under other degrees. Thus each list of degree holders is complete in itself. Carrying out the same plan of inclusive record, the alphabetical index at the back of the volume lists all the Yale degrees received by each living graduate.

A graduate's own decision as to his occupation has been generally followed where this has been given. The classification, which is the same as that in the editions of 1908 and 1910, is as follows:

Art, Architecture, and Music	[Art]	Law and Judiciary	[Law]
Education	[Ed.]	Manufacturing	[Mfg.]
Engineering (including Forestry)	[Eng.]	Medicine	[Med.]
Farming and Ranching	[Agr.]	Mercantile Business	[Merc.]
Finance	[Fin.]	Ministry	[Min.]
Government (permanent civil and military service)	[Gov.]	Science	[Sc.]
Journalism and Letters	[Lit.]	Transportation	[Trans.]

Attention needs to be called, as in the past, to the fact that the totals under "Government" are smaller than actual conditions warrant, as many graduates engaged in government service prefer to classify themselves under "Law" or some other occupation which represents the main line of their life work.

This edition of the Directory marks the beginning of the fourth decade of the printing of address lists of Yale graduates. The first edition of such a publication appeared in 1872, edited by Mr. Franklin Bowditch Dexter, then Secretary of the College. It consisted of an address list of graduates of the Academical Department. Subsequent editions appeared in 1881, 1886 and 1889. In 1892 the scope of the publication was extended to include graduates of all departments. The editions which appeared in 1901, 1904, 1906, 1908 and 1910, under the direction of Rev. Anson Phelps Stokes, Jr., University Secretary, included several new features, among them the occupations of graduates, the locality and alphabetical indices, and statistical summaries of occupation and locality

distribution. In the present edition the Directory continues as the work of the University Secretary's Office.

It is requested that the Directory be used only for University and personal purposes, not as a general mailing list for advertising.

Alumni Registrar.

BACHELORS OF ARTS

[NOTE: Previous Yale degrees with the year of their award are printed in parentheses following a graduate's name. At the conclusion of each class list is printed at the right of the page in parentheses the total number graduating in the given class, and to the right of that figure, without parentheses, the total enrollment of the class at present living. Class Secretaries are printed in bold face type. A dagger (†) at the left of a name indicates that a former non-graduate has been enrolled with his class because he has received an honorary degree from the University. The number of such names included in each class list is indicated by the figure at the right of the plus sign (+) bracketed with the figure indicating the total number of graduates in the class.]

Class Secretaries are printed in bold face type. A dagger (†) at the left of a name indicates that a former non-graduate has been enrolled with his class because he has received an honorary degree from the University. BACHELORS OF PHILOSOPHY

[NOTE: Previous Yale degrees with the year of their award are printed in parentheses following a graduate's name. At the conclusion of each class list is printed at the right of the page in parentheses the total number graduating in the given class, and to the right of that figure, without parentheses, the total enrollment of the class at present living. Class Secretaries are printed in bold face type. A dagger (†) at the left of a name indicates that a former non-graduate has been enrolled with his class because he has received an honorary degree from the University.
